PROFILE SUMMARY

Highly motivated 3rd year Information Technology (B.Tech) student with a passion for coding. Proven leadership skills and a strong ability to collaborate effectively within teams. Eager learner with excellent listening skills, always seeking to expand knowledge and contribute to a positive work environment.

CERTIFICATIONS

NPTEL-Introduction to Internet Of Things   Jul-Oct 2023

- Completed NPTEL's "Introduction to IoT" course(12 week), gaining a solid foundation in core concepts like sensor networks, communication protocols, and data analysis. This equips me to contribute to the development of innovative IoT applications.

doITnow Technologies
Internship   Feb-2022

- Successfully completed a 12-week internship program in Content Creation and Animation at doITnow Technologies (Feb 2022), earning an internship program certificate.

PROJECTS

Blood Donation System   March-Aug 2023

- Developed a Blood Donation System in a team environment using DBMS principles. The system facilitated blood donation and allocation based on real-time availability and managed donor information like blood group, name, address, and blood unit quantity.
